Customer Problem Statement:

Temple darshan is an important spiritual activity for millions of devotees. However, the traditional method of obtaining darshan tickets often involves standing in long queues, dealing with overcrowding, limited availability of information, and uncertainty regarding darshan timings. These challenges can lead to inconvenience, time loss, and a poor experience for devotees, especially during weekends, festivals, and special occasions.

Many temples still rely on manual booking processes, making it difficult to efficiently manage visitor flow, monitor slot availability, and maintain accurate booking records. In addition, devotees often need to visit multiple websites or travel to the temple in person to check availability, make reservations, or receive updates. Temple organizers also face difficulties in managing bookings, scheduling darshan slots, handling cancellations, and generating reports using manual systems.

To overcome these challenges, there is a need for a centralized, secure, and user-friendly digital platform that simplifies the entire darshan booking process. The proposed Darshan Ease web application addresses these issues by enabling devotees to register, explore temples, check real-time slot availability, book darshan tickets online, make secure payments, and receive instant booking confirmations. The system also provides dedicated dashboards for organizers and administrators to efficiently manage temples, darshan slots, bookings, users, and reports.

By automating the temple darshan ticket booking process, the Darshan Ease system aims to reduce waiting times, improve operational efficiency, enhance transparency, and provide a seamless and convenient experience for both devotees and temple management.

I am	Describe customer with 3-4 key characteristics - who are they?	Describe the customer and their attributes here
I'm trying to	List their outcome or "job" the care about - what are they trying to achieve?	List the thing they are trying to achieve here
but	Describe what problems or barriers stand in the way - what bothers them most?	Describe the problems or barriers that get in the way here
because	Enter the "root cause" of why the problem or barrier exists - what needs to be solved?	Describe the reason the problems or barriers exist
which makes me feel	Describe the emotions from the customer's point of view - how does it impact them emotionally?	Describe the emotions the result from experiencing the problems or barriers

Example:

 I am	 I'm trying to	 but	 because	 which makes me feel
Defines who the customer is.	Describes what the customer wants to achieve.	Explains the obstacle or difficulty.	Explains the root cause of the problem.	Describes the emotional impact on the customer.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A temple devotee who wants to visit temples regularly for darshan.	Book darshan tickets and reserve my preferred time slot in advance.	I have to stand in long queues and wait for hours to get tickets.	Most temples still rely on traditional offline booking methods with limited slot information and poor crowd management.	Frustrated, stressed, and uncertain about completing my darshan on time.
PS-2	A devotee planning to visit multiple temples with family or friends.	Find temple details, available darshan timings, and book tickets online from one platform.	Information about temples, darshan schedules, and slot availability is scattered across different sources or unavailable online.	There is no centralized system that provides temple information and online booking facilities in one place.	Confused, inconvenienced, and unable to plan my spiritual journey efficiently.
