| Project Name  | Darshan Ease |
| Maximum Marks |              |

## Project Overview:

Project Name: Darshan Ease

Project Description: Darshan Ease is a web-based application that enables devotees to book temple darshan tickets online. The system allows users to register, browse temples, check real-time slot availability, book tickets, make secure payments, and manage booking history. It also provides organizer and administrator dashboards for efficient management of temples, slots, users, and bookings.

Project Version: Version 1.0

Testing Period: 25 June 2026 – 27 June 2026

## Testing Scope:

### Features and Functionalities to be Tested

- User Registration
- User Login
- Temple Listing
- Temple Search
- Darshan Slot Selection
- Ticket Booking
- Online Payment
- Booking Confirmation
- Booking History
- Profile Management
- Organizer Dashboard
- Admin Dashboard
- Logout

### User Stories to be Tested

- User can create an account.
- User can log in successfully.
- User can browse available temples.
- User can select available darshan slots.
- User can book darshan tickets.

- User can make secure online payments.
- User can download booking confirmation.
- Organizer can manage temples and slots.
- Admin can manage users and organizers.

## Testing Environment:]

### Test Cases:

| Test Case ID | Test Scenario        | Test Steps                                     | Expected Result                   | Actual Result                | Pass/Fail |
|--------------|----------------------|------------------------------------------------|-----------------------------------|------------------------------|-----------|
| TC-001       | User Registration    | Open Register → Enter Details → Click Register | User account created successfully | Account created successfully | Pass      |
| TC-002       | User Login           | Enter Email & Password → Login                 | User redirected to Dashboard      | Login successful             | Pass      |
| TC-003       | View Temple List     | Click Temples                                  | Temple list displayed             | Displayed correctly          | Pass      |
| TC-004       | Search Temple        | Enter temple name                              | Matching temple displayed         | Displayed correctly          | Pass      |
| TC-005       | View Darshan Slots   | Select a temple                                | Available slots displayed         | Displayed correctly          | Pass      |
| TC-006       | Book Darshan Ticket  | Select slot → Confirm booking                  | Ticket booked successfully        | Booking successful           | Pass      |
| TC-007       | Online Payment       | Complete payment                               | Payment successful                | Payment successful           | Pass      |
| TC-008       | Booking Confirmation | Finish booking                                 | Booking ID generated              | Generated successfully       | Pass      |
| TC-009       | View Booking History | Click My Bookings                              | Booking history displayed         | Displayed correctly          | Pass      |
| TC-010       | Update Profile       | Edit profile → Save                            | Profile updated                   | Updated successfully         | Pass      |
| TC-011       | Organizer Add Slot   | Login as Organizer → Add Slot                  | Slot added successfully           | Slot added                   | Pass      |

|        |                       |                             |                         |                         |      |
|--------|-----------------------|-----------------------------|-------------------------|-------------------------|------|
| TC-012 | Admin Manage Users    | Login as Admin → View Users | Users displayed         | Displayed correctly     | Pass |
| TC-013 | Invalid Login         | Enter incorrect password    | Error message displayed | Error displayed         | Pass |
| TC-014 | Booking Without Login | Try booking without login   | Redirect to login page  | Redirected successfully | Pass |
| TC-015 | Logout                | Click Logout                | User logged out         | Logout successful       | Pass |

#### Bug Tracking:

| Bug ID | Bug Description                             | Steps to Reproduce                              | Severity | Status | Additional Feedback         |
|--------|---------------------------------------------|-------------------------------------------------|----------|--------|-----------------------------|
| BG-001 | Booking button works without slot selection | Open temple → Click Book without selecting slot | Low      | Closed | Validation added            |
| BG-002 | Invalid email accepted during registration  | Enter invalid email → Register                  | Medium   | Closed | Email validation fixed      |
| BG-003 | Duplicate booking allowed                   | Book same slot twice                            | High     | Closed | Duplicate booking prevented |
| BG-004 | Profile update not reflected immediately    | Update profile → Refresh page                   | Low      | Closed | Refresh issue resolved      |

| Tester    | Feedback                                        |
|-----------|-------------------------------------------------|
| Tester 1  | Booking process is simple and user-friendly.    |
| Tester 2  | Temple search is fast and accurate.             |
| Tester 3  | Payment and booking confirmation work smoothly. |
| Organizer | Dashboard is easy to manage.                    |
| Admin     | User and booking management is efficient.       |

**Notes:**

- Ensure that all test cases cover both positive and negative scenarios.
- Encourage testers to provide detailed feedback, including any suggestions for improvement.
- Bug tracking should include details such as severity, status, and steps to reproduce.
- Obtain sign-off from both the project manager and product owner before proceeding with deployment.
