

Project Design Phase
Proposed Solution Template

Date	26 june 2026
Team ID	
Project Name	Darshan Ease
Maximum Marks	2 Marks

Proposed Solution Template:

Project team shall fill the following information in the proposed solution template.

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	Devotees face long queues, overcrowding, and difficulty in checking darshan slot availability. Temple authorities also struggle with manual booking management and maintaining records efficiently.
2.	Idea / Solution description	Develop Darshan Ease , a web-based application that enables devotees to register, view temple details, check real-time darshan slot availability, book tickets online, make secure payments, and receive instant booking confirmations. The system also provides dashboards for organizers and administrators to manage temples, slots, and bookings efficiently.
3.	Novelty / Uniqueness	The platform combines multiple temples into a single application with real-time slot tracking, online ticket booking, secure payments, booking history, and dedicated dashboards for users, organizers, and administrators.
4.	Social Impact / Customer Satisfaction	Reduces waiting time and overcrowding, improves convenience for devotees, promotes digital services in temples, enhances transparency, and increases customer satisfaction through a smooth booking experience.
5.	Business Model (Revenue Model)	Revenue can be generated through online convenience fees, premium booking services, donation processing charges, advertisements, and subscription plans for temples using the platform.

6.	Scalability of the Solution	The system can be expanded to include more temples across different regions, integrate additional payment gateways, support multiple languages, provide mobile applications, and handle a growing number of users with cloud-based deployment.
